Woodcarving
with John Modjewski

Materials Fee: \$10 for precut blanks

Supply List:

This workshop will focus on types of woodcarving, the safe use of various tools and sharpening methods, basic woodcarving cuts, qualities of woods and finishing techniques. The projects will include carving and finishing Old World human and animal caricatures. These carvings are from six to eight inches tall and about three inches wide.

They can be carved with a carving knife from pre-sawed blanks. Some knives and tools will be available but please bring your own favorite tools. Also, please bring chain mail gloves (like you would use to clean a fish).
