Why Gender Matters in Educating Boys and Girls

Concrete strategies to boost academic achievement

You work with kids for a reason—you want to help them learn, grow and succeed.

This workshop will give you a fresh perspective on student behavior and the contrast in how boys and girls learn.

Specifically designed for: Classroom teachers, principals, guidance counselors, school personnel and other K-12 educators

Consider these thought-provoking workshop topics:

- Do girls and boys really learn differently? Is that question even meaningful, given the wide variation among girls and among boys?
- How can we customize our teaching to be gender-specific without reinforcing gender stereotypes?
- What are some practical strategies to boost academic achievement for boys in subjects like English, language arts and creative writing?
- What can we do to prevent girl-on-girl bullying—including cyber bullying?
- How do we motivate boys to care more about learning?
- What can we do to cut down on discipline referrals and get every student on board?
- What racial and cultural characteristics need greater understanding to successfully implement these strategies for girls and boys?

Is your interest piqued? Come learn more about these topics and other issues at the intersection of gender and education. After hearing the latest research you'll never view gender the same way again!

Easy online registration and more information at:

www.dcs.wisc.edu/pda/boysandgirls/

Comments from past participants at Dr. Sax's workshops:

"Dr. Sax is a godsend. His work has given us insight on organizational design, staff and teachers' instructional development, and ways to transform our students and curriculum."

"I stayed up past midnight talking with my colleagues about what I heard at Dr. Sax's presentation earlier that day. His talk was brilliant and inspiring. I confess to feeling a poverty of words in trying to convey how much I enjoyed hearing Dr. Sax and how much I appreciate what he is doing for education."

"Dr. Sax's presentation gave me concrete information I could use in the classroom."

Your instructor

Leonard Sax, MD, PhD, is a family physician, psychologist and best-selling author of *Why Gender Matters*, *Boys Adrift* and *Girls on the Edge*. He is the director of the National Association for Single Sex Public Education. Over the past 10 years, he has visited more than 300 schools around the world assembling a

compendium of gender-specific best strategies for the classroom. Dr. Sax has appeared on CNN, PBS, NPR and NBC's TODAY show. His scholarly work has been published in *American Psychologist*, *Annals of Family Medicine*, *Behavioral Neuroscience* and *Journal of the American Medical Association* among others.
