

Sample Timeline: Eligibility for and Completion of Phase III

Notes:

Phase III classes are attended by a cohort group, (i.e., the same group of people attend all Phase III classes).

The dates for Phase III are set by the program and the group. Case Studies dates are set by the program. At the first meeting of Case Studies, the group determines the remaining class dates for the Simulation and the Leadership Seminar.

The *sample* dates shown above are to provide an *example* of how Phase III *might* run. Phase III has a duration of approximately 9 months (to allow candidates adequate time to complete their Applied Projects).

A Phase III participant must attend all Phase III class dates; s/he may miss no more than 1 hour during the entire Phase III. Exceptions to this policy can only be allowed with approval of the entire group and the instructor.

Participants submit a separate registration form for each Phase III class; each fee is invoiced separately.
